Memorandum:

The Texas Grain and Feed Association Board of Directors has unanimously approved changes to the association's dues structure across all categories for the first time since 2017-18. This decision was guided by a recommendation made by the Dues Committee, and was deemed necessary to continue providing the services TGFA members have come to expect from the association.

To make sure we have all your correct information and get you a proper invoice we are asking that you fill out the following application. We will use the info gathered in the new directory. While we would be happy to work with you on a plan to get your invoice paid, we would ask to please return the attached application before June so we do not publish inaccurate information. If you need additional time, please let us know.

Take a look at the pink paper enclosed. This is what we currently have on file for your company. We understand that you have employee changes over time and would ask that you submit the most current roster, as well as email addresses for the members you would like to receive TGFA information. We often put out e-blasts to breaking news, legislative issues, and invites to free regional events. TGFA staff wants to make sure we are not leaving out your team members when distributing this information.

I want to take this opportunity to thank you for your continued support and engagement to the Texas Grain and Feed Association. These last few years have been quite challenging, but it is in the challenging times that the Association is that much more valuable. The conversations that are being had behind closed doors in order to deliver a new farm bill, the state elected officials that depend on us for education when writing legislation, our trade rules and arbitration system, and most of all the relationships that are built among members through our yearly events. These are just a few of the reasons you have chosen to be part of our association, and I can confidently say we are only a sum of our parts, and are stronger because of you.

Sincerely,

Tara Artho

PRESIDENT & CEO
